**INTUITIVE CONCEPTS RELEASES DVD REGARDING 2010 ENERGY;
SPECIFIC TIPS, EARTHQUAKES, AND MORE**

SUNBURY, OH, (March 2, 2010) – Diana Garber, President and Creative Environment Officer of Intuitive Concepts, has been referred to as a psychic, one with clear predictions. However she is not, nor does she claim that title.

Her interpretation of environmental energy is based on fact, formulas and trends. “There is no silver bullet for what is happening globally,” Garber states. Her intent is to identify risk factors and offer suggestions that encourage people to be proactive.

Last October, Garber gave a lecture on the energy for 2010. She discussed the economy, real estate trends for the year, political challenges, and earthquakes.

In light of recent events in Haiti, Japan, and Chili, this is one DVD you must see. Garber encourages everyone to consider earthquake insurance riders this year, as well as providing a few specific tips for home and offices. Garber says, “it’s better to plan and not use the plan ... than not to plan at all.”

The DVD is available for purchase on our website at <http://www.intuitiveconcepts.com>.
