**Re: Diana Garber  
Feng Shui Consultant**

Dear Better Business Bureau,

I am a physician in Dublin, Ohio where I practice general medicine integrating traditional osteopathic medicine, western medicine and acupuncture. I had known about the effectiveness of feng shui for years but only seemed to find what I refer to as "decorative" feng shui consultants. I had my home evaluated and feng shui remedied by Diana Garber almost 2 years ago with yearly updates. Results were noticeable in short order with nearly every remedy.

Primary to me was Diana's focus keyed in on the impact of the home's energy flow on our whole family. Then she impressed me with her simple, low cost, get it done remedies.

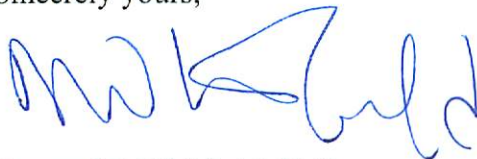

As my wife, Jennifer, and I worked with remedies we would regularly have questions with regard to staying in line with Diana's remedy. Diana was easily accessible by phone or email and resolved questions even if it meant coming back to our home to see with her own eyes.

Jennifer and I have additionally attended workshops where Diana's knowledge, organized thought and enthusiasm further exposes her expertise and commitment to the role feng shui can have in a person's every day life.

Diana and I have subsequently developed a working relationship over the years. Our mutual respect and trust for each other's expertise and integrity makes for easy referral and helps maximize the outcomes of the people we serve.

Diana is recommended by me with the highest of regard.

Sincerely yours,

Damon M. Whitfield, D.O.
